

## COVID-19 Laboratory assessment tool: Facility questionnaire report

All data in this module are automatically retrieved, nothing is to be filled in here except the comment boxes

### Laboratory identification

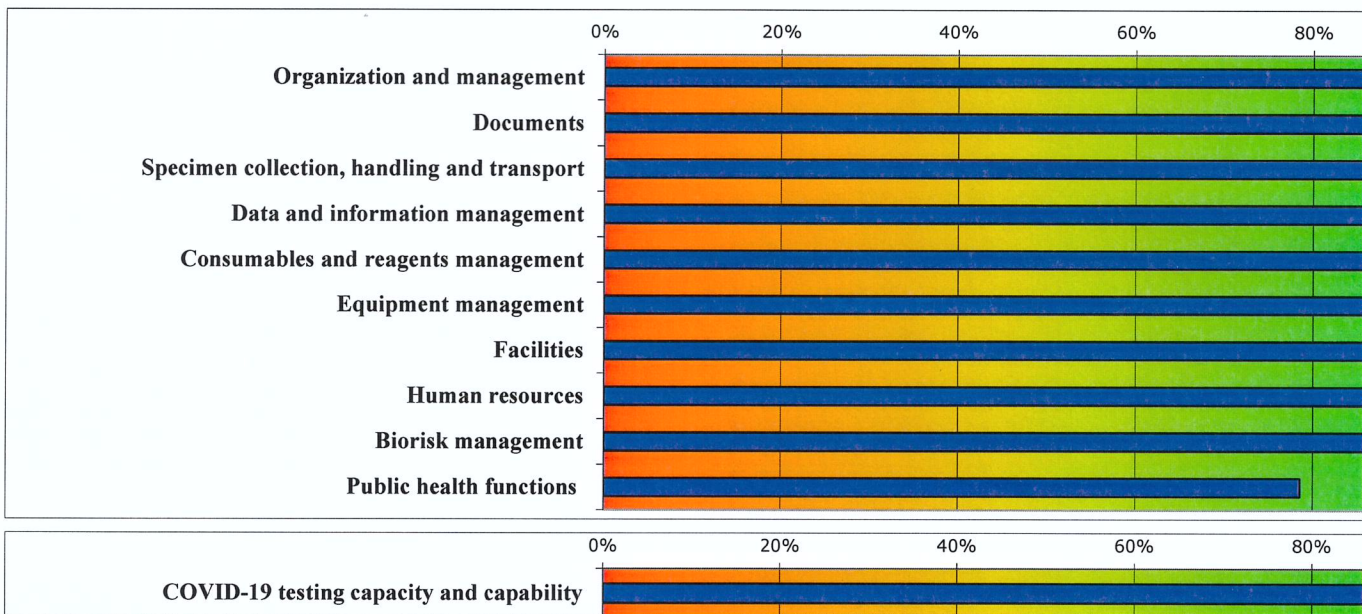

Country	Greece
Region/Province/District	Attica/Athens
Name of the laboratory	Genotypos Science Labs
Address	3-5 Ilision street
Telephone	+30-210-7770870
Fax	+30-210-7770942
E-mail	genotypos@genotypos.gr
Name of the laboratory director	Pantelis Constantoulakis
Date of the assessment (DD/MM/YYYY)	22/04/2020
Name of the assessor/s	Georgia Christopoulou, Pantelis Constantoulakis, Stavros Bournazos
Name of the responding person/s	Dimitra Tsakalia
Level of laboratory	Central/Reference
Affiliation/ type of laboratory	Private
Affiliated Ministry (if applicable)	Health
Total number of persons working in the laboratory	33
Estimated population covered by this laboratory	150-200 subjects per day

---

<b>Average indicator for the laboratory core capacities</b>		<b>96%</b>
1.	<i>Organization and management</i>	100%
2.	<i>Documents</i>	100%
3.	<i>Specimen collection, handling and transport</i>	95%
4.	<i>Data and information management</i>	100%
5.	<i>Consumables and reagents management</i>	95%
6.	<i>Equipment management</i>	100%
7.	<i>Facilities</i>	100%
8.	<i>Human resources</i>	100%
9.	<i>Biorisk management</i>	93%
10.	<i>Public health functions</i>	79%
11.	<b>COVID-19 testing capacity and capability</b>	<b>100%</b>

**Technical capacity (trained laboratory staff, appropriate equipment and facilities) for the following techniques (may include but not limited to COVID-19 testing):**

- *Nucleic acids extraction and RT-PCR* 100%
- *Serology* 100%
- *Nucleic Acid Amplification Test (NAAT) with automated system* 100%

**Gap analysis, from 0 (no gap) to 5 (high gap)**
